

ODC 6-24Cores Mating Cable

1. TACTICAL CABLE

Specifically for field wiring and complexity of environment, designed for repeated retractable conditions application, light weight, anti-tension, compression and strong; softness; easy to bend; abrasion, flame retardant, suit for widely range temperature. Communication systems for military field wiring or repeated rapid retractable; radar, aviation and ship wiring; oilfield, mine, port, broadcast live on television, communication line repair, and other harsh conditions of the occasion.

2. Multipurpose Cable

Multipurpose cable wiring using multiple $\Phi 900\mu\text{m}$ retardant sleeve fiber as light transmission medium, covered with a layer of Kevlar as a force to strengthen the unit, the outermost layer of flat extruded polyvinyl chloride (PVC) or halogen material (LSZH, low smoke, halogen-free, flame-retardant) jacket made. Multi-purpose wiring cable for indoor wiring or go trough other occasions.
